Applications per Departments

# INDEX

Anesthesia and ICU	1
Breast Unit	2
Cardiac Surgery	3
Dermatology	4
Diabetology - Diabetic Foot	5
Emergency Surgery	6
ENT Surgery	7
General Surgery	8
Geriatrics	9
Gynecology	10
Neurosurgery	11
Odontostomatology	12
Oncohematology	13

# INDEX

Oncology	14
Oral and Maxillofacial Surgery	15
Orthopedics	16
Pediatric / Adult Burns Center	17
Pediatric Surgery	18
Plastic Surgery	19
Radiotherapy	20
Thoracic Surgery	21
Urology	22
Vascular Surgery	23

# ANESTHESIA AND ICU

NOVOX® 

- Device-related oral cavity lesions
- Trauma
- Burns
- Stevens-Johnson Syndrome

NOVOX® 

- Device-related damages to the nasal cavities (e.g., nasogastric tube)

NOVOX® 

- Lesions or complications from tracheostomy
- Lesions or complications from PEG
- Lesions or complications from nephrostomy

# BREAST UNIT

n o v o x\*

- Complex Areola-Nipple Graft
- Fistulas and surgical dehiscence of the submammary fold or of the nipple

n o v o x\*

- Post-surgical lesions of the breast in reconstruction procedures
- Oncoplastic: Vertical or inverted "T" incision
- Nipple Sparing
- Subcutaneous mastectomy with reconstruction

n o v o x\*

- Post-surgical lesions of the periareolar area in reconstruction procedures
- Round Block
- Batwing and Emibatwing

n o v o x\*

- Post-surgical lesions of the periareolar area in reconstruction procedures

n o v o x\*

- Dehiscence of the submammary fold (Skin Reduction).
- Complex Areola-Nipple Graft

n o v o x\*

- Quadrantectomy
- Subcutaneous mastectomy without immediate reconstruction

n o v o x\*

- Post-surgical dehiscence

# CARDIAC SURGERY

NOVOX®

- Post-surgical sternal lesion
- Fistula following dehiscence at the surgical site

NOVOX®

- Post-surgical sternal lesion
- Dehiscence at the surgical site

NOVOX®

- Post-surgical dehiscence
- In association with Negative Pressure Therapy (NPT)

# DERMATOLOGY

n o v o x<sup>o</sup>

- Genital lesions (e.g. lichen sclerosus, erosive Lichen sclerosus of the Genitals)
- Hydradenitis suppurativa and post-surgical complications

n o v o x<sup>o</sup> 

- Lesions (e.g. angular cheilitis)
- Blistering lesions (e.g., pemphigus)
- Lesions due to drug intoxication (e.g. Lyell's syndrome)
- Stevens-Johnson syndrome

n o v o x<sup>o</sup> 

- Lyell syndrome
- Stevens-Johnson syndrome

n o v o x<sup>o</sup> 

- Post-surgical oncological lesions (e.g. melanoma) or post-extraction lesions
- Hydradenitis suppurativa in post-Surgical treatment
- Lyell syndrome
- Stevens-Johnson syndrome

n o v o x<sup>o</sup> 

- Scleroderma ulcers of fingers and toes

# DIABETOLOGY - DIABETIC FOOT

n o v o x®

- Fistula
- Tunneling

n o v o x®

- Ulcers
- Grafts
- Complications of post-surgical lesions

n o v o x®

- Ulcers

n o v o x®

- Finger and toe lesions

# EMERGENCY SURGERY

n o v o x<sup>®</sup>

- Fistula

n o v o x<sup>®</sup>

- Fournier's Gangrene
- Necrotizing Fascitis
- Compartment Syndrome

# ENT SURGERY

n o v o x®

- Tracheostomy Lesions (particularly in irradiated patients)

n o v o x®

*drop*

- Oral Cavity Lesions Following Radiotherapy
- Complications of Post-Surgical Lesions

n o v o x®

*fit*

- Flap surgery

n o v o x®

*roll*

- Dehiscences

n o v o x®

*slim*

- Nasal surgery
- Nasal fractures
- Recurrent epistaxis

n o v o x®

*spot*

- Tracheostomies

# GENERAL SURGERY

NOVOX®

- Small-caliber lesions (e.g. fistulas)
- Pilonidal cysts
- Abscesses

NOVOX®

- Flat surgical dehiscences

NOVOX®

- Post-surgical lesions

NOVOX®

- Deep surgical dehiscence requiring packing
- Pilonidal cysts
- Abscesses

# GERIATRICS

n o v o x<sup>o</sup>

- Pressure ulcers
- Genital lesions
- MASD
- IAD

n o v o x<sup>o</sup>

- Mucositis
- Gingival Inflammation from incongruent dentures
- Oral epithelial infections (e.g. candidiasis)

n o v o x<sup>o</sup>

- Lower limb ulcers

n o v o x<sup>o</sup>

- Candidiasis

n o v o x<sup>o</sup>

- Pressure ulcers
- MASD
- IAD
- Packing
- Extensive lesions

# GYNECOLOGY

NOVOX®

- Episiotomy
- Lesions

NOVOX®  *cup Mini*

- Breastfeeding Cracks

NOVOX®  *gyno*

- Candidiasis
- Vulvectomy

NOVOX®  *patch*

- Lesions

NOVOX®  *roll*

- Packing

# NEUROSURGERY

n o v o x®

- Complications of small post-surgical lesions

n o v o x®  *patch*

- Prevention of surgical site complications

n o v o x®  *roll*

- Deep post-surgical lesions

# ODONTOSTOMATOLOGY

n o v o x®

drop

- Traumatic lesions
- Post-surgical lesions
- Post-extraction lesions
- Gingivitis
- Periodontitis
- Angular cheilitis
- Alveolitis

# ONCOEMATOLOGY

n o v o x<sup>o</sup>

- Small Lesions on the trunk or other body parts due to GVHD

n o v o x<sup>o</sup>

- Oral lesions due to GVHD (es. mucositis)

n o v o x<sup>o</sup>

- Small lesions on the trunk (GVHD)

n o v o x<sup>o</sup>

- Small lesions on the trunk (GVHD)

# ONCOLOGY

NOVOX®

- Neoplastic ulcerative lesions
- Lesioni da stravasamento di chemioterapici

NOVOX® 

- Lesions from chemotherapy extravasation

NOVOX® 

- Neoplastic ulcerative lesions
- Lesions from chemotherapy extravasation

NOVOX® 

- Neoplastic ulcerative lesions

NOVOX® 

- Lesions from chemotherapy extravasation
- Neoplastic ulcerative lesions

# ORAL AND MAXILLOFACIAL SURGERY

n o v o x®

- Post-surgical dehiscence (e.g., mandibular or head-neck)

n o v o x® 

- Surgery of the oral flaps or epithelium
- Post-extraction lesions in osteoradionecrosis
- Alveolitis
- Cleft lip and palate

n o v o x® 

- Flap surgery

n o v o x® 

- Post-surgical dehiscence (e.g., mandibular or head-neck)

n o v o x® 

- Lesions of the nasal mucosa
- Recurrent Epistaxis
- Nasal fractures

n o v o x® 

- Tracheostomy
- PEG

# ORTHOPEDICS

n o v o x®

- Hand Surgery in the Post-Surgical Pathway or in Case of Complications (e.g., Dupuytren's Disease)
- MARSI

n o v o x®

- Complications in post-surgical lesions
- Dehiscences
- MARSI

n o v o x®

- Post-surgical lesions (e.g. dehiscences)
- Traumas
- Packing
- Lesions around external fixators
- In association with Negative Pressure Therapy (NPT)
- MARSI

n o v o x®

- Finger injuries
- Crush injuries
- Hand surgery

# PEDIATRIC / ADULT BURNS CENTER

n o v o x® 

- Lyell's syndrome
- Burns of the mucous membranes and oral epithelium

n o v o x® 

- First, second, and third-degree burns
- Dressing in post-skin grafting care
- Donor site

n o v o x® 

- First and second-degree burns
- Dressing in post-skin grafting care
- Donor site

n o v o x® 

- First, second, and third-degree burns

n o v o x® 

- First, second, and third-degree burns affecting the face

n o v o x® 

- First, second, and third-degree burns affecting fingers and toes

n o v o x®  *Full Size*

- Hand first, second, and third-degree burns affecting hands

# PEDIATRIC SURGERY

NOVOX®

- Fistula
- Pilonidal cysts
- Post-surgical dehiscence

NOVOX®

- Hypospadias
- Circumcision

NOVOX®

- Lesions or complications from tracheostomy
- Lesions or complications from PEG
- Lesions or complications from nephrostomy
- Lesions or complications from drainage tubes

NOVOX®

- Trauma
- Burns
- Ingrown nails

# PLASTIC SURGERY

NOVOX®

- Post-surgical lesions

NOVOX® 

- Post-surgical mammary lesions

NOVOX®  Mini Pin 

- Post-Surgical Lesions in the Periareolar Area

NOVOX® 

- Donor site
- Flap surgery
- Compression of the graft site

NOVOX® 

- Donor site

NOVOX® 

- Post-surgical lesions

NOVOX® 

- Facial burns
- Trauma caused by road accidents (e.g. abrasions on asphalt)

NOVOX® 

- Finger and toe lesions
- Finger and toe trauma
- Finger and toe burns

NOVOX®  Full Size 

- Burns

# RADIOTHERAPY

n o v o x<sup>®</sup>

- Lesions of the genital tract post-irradiation

n o v o x<sup>®</sup> 

- Radiodermatitis

n o v o x<sup>®</sup> 

Oral cavity lesions (e.g. mucositis)

n o v o x<sup>®</sup> 

- Oral cavity lesions (e.g. mucositis)

n o v o x<sup>®</sup> 

- Radiodermatitis

# THORACIC SURGERY

n o v o x®

*patch*

- Post-surgical applications

n o v o x®

*roll*

- Post-surgical dehiscence
- Abscesses

n o v o x®

*spot*

- Lesions or complications from chest drainage
- Lesions or complications from pleural drainage

# UROLOGY

NOVOX®

- Surgical dehiscences
- Balanitis with tissue loss

NOVOX® 

- Circumcisions
- Post-surgical lesions
- Urethroplasty
- Hypospadias

NOVOX® 

- Surgical dehiscences

# VASCULAR SURGERY

NOVOX®

- Fistula or tunneling
- Small-caliber lesions

NOVOX®

- Post-graft
- Fasciotomy
- Vasculitis

NOVOX®

- Post-graft care

NOVOX®

- Lower limb lesions
- Inguinal dehiscence
- Fasciotomy
- Vasculitis

NOVOX®

- Toe lesions
